REPORT OF THE SCHOOL BOARD

The School Board of Moultonboro submits the following report:

First: We are pleased to report that six of our school houses are in a comfortable, hygienic and attractive condition. Two yet remain which need to be put in a like condition.

Fair progress has been made in all the schools, but they have not yet reached that degree of perfection which, in our opinion, they ought to attain. In order that our schools may be brought up to a satisfactory standard, it will be necessary first to have new and more modern text books.

This is an age of progress, and there has been as much improvement in text books and advancement in the art of teaching, as in the other arts, sciences and industries. Geography is constantly changing, History is ever making, Language has its steady growth, Arithmetic is made more practical, thereby not only developing the minds, but fitting our boys and girls for the actual needs of life.

Shall we keep abreast of the times? Then let us have new text books.

Second: In our opinion, the number of school weeks per year should be increased to at least thirty, divided into three terms of ten weeks each. We are as well able to have thirty weeks school yearly as our neighboring towns, and parents should have interest and wisdom enough to see that our scholars have an equal chance with those in other country towns.

We would recommend an appropriation of money sufficient to repair the remaining school houses in need of same, and put new text books into the hands of all our scholars.

If we help ourselves as best we can, we shall merit and ultimately receive assistance from the state, which would enable us to hire the best teachers procurable, thereby bringing our schools up to a higher and much desired standard.

FRANK S. LOVERING,
WILLIAM P. WHITE,
Committee.
